Do you have
a growth
mind-set or
a fixed
mind-set?

<https://www.youtube.com/watch?v=M1CHPnZfFmU>

People who have a growth mind-set see failure as an opportunity to grow! They take risks in their learning, act on feed back and keep improving!

People who have a fixed mind-set think they are good at something or bad at something. They don't think they can improve, don't take risks in learning and take feedback as criticism.

**WHETHER YOU
THINK
YOU CAN
OR YOU THINK
YOU CAN'T,
YOU'RE
RIGHT.
-HENRY FORD**

This quote comes from the founder of the car manufacturer Ford Cars.

His 'can do' growth mind-set led to his huge success in business.

What would have happened if he had a fixed mind-set? He would probably have given up before he tasted success and would never have achieved the quality of life he wanted.

So which will you choose?
